

DO YOU HAVE SOMETHING YOU WANT TO MAKE?

Makerspace is a community owned and run workshop in Newcastle Upon Tyne. We're an eclectic group of makers, creatives, programmers, scientists and engineers and we've set up a space to meet, work, socialize, share ideas and collaborate.

We're active and growing fast. Come down and join in – all abilities welcome!

Visitors welcome on Wednesdays, see website for details: www.makerspace.org.uk @maker space
